

# ***Request for Changes to RFP HHSA OSI #17503 – CMIPS II Implementation Phase Systems Engineering***

Tuesday, July 03, 2007

---

1. Section 10.2.1 of the RFP, Acceptability of Contractor Performance, states:  
*"The OSI shall be the sole judge of the acceptability of all work performed and all work products produced by the Contractor as a result of the contract. Should the work performed or the products produced by the Contractor fail to meet the minimum OSI conditions, requirements or other applicable standards, specifications or guidelines, the following resolution process shall be employed except as superseded by other binding processes."*

*The acceptability of the Contractor's work should be based upon clearly defined criteria as set forth in the resultant contract. We request that the State modify this section of the RFP to clarify that the acceptability of all work performed and all work products produced by the Contractor as a result of the contract shall be based upon the material requirements as set forth in the resultant contract.*

## ***Response***

This requirement will not be changed. The Office of Systems Integration (OSI) will act in good faith in judging and determining whether all work performed and all work products produced by the Contractor meet the contract requirements.
